Era the important discovery of Antipon the treatments usually employed for the reduction of weight included starration dietary rules, sweating and purging, together with mineral drugging. All these things are weakening in the extreme, and, when obstinately persisted in ruinous to the constitution. Antipon is diametrically opposed to such drastic methods.

To expel the superfluous fatty matter from the system is all very well, but the body must be amply nourished at the same time. Now, Antipon not only rapidly eliminates the excess of fat, but overcomes the unfortunate tendency to "run to fat." The daily decrease is eminently satisfactory. When normal weight and symmetrical proportions are regained the treatment is no longer noces.

But if the pulsee escaped lightly, that was not the case with the rest of Compiegne. M. Mourey thus describes the misuse and looting of a private mansion THE 74TH PUNJABIS will perform situated in the public square just onposite to the palace:-

"For two days joyous shouts, bursts of laughter, and singing have been coming from the house. A band of officers. soldiers, and non-commissioned officers have taken possession of it; they have brought in women, and a German orgy

morican Journalists" Breach Neutrality.

Duspits the war, despite the threatened visits of German sircraft, despite the all-absorbing work of caring for the wounded the fair sex of Paris has found the time to roice an indignant protest against the an nouncement printed in the American newspapers that a certain well known actress who is soon to arrive in New York, is the most beautiful woman in Paris.

Milo localyno is a Very good looking young lady, an extremely good ooking foung lady, if you please, but from this to being the most boutiful woman of the Bunch espital there is a considerable distance to be traversel, and there are several we man in Paris who would have a far greater right to the tible, if such a title would be possible to confer," explained a

well known actross, hereif'n noted boauty. The request for an answer to the question who is the most beautiful woman in Paris has brought forth as plany names as the number of persons approached. They include Mme Letellier, Mile. Marthe Urban, Mile. Trene Bordoni, Mile. Yaitha Chenal,

CONNORSETR'S VIEWS ...

"The most benutiful woman in Paris ! no single individual, she is a legion." declared Baron de Gerande, admittedly the greatest connoisseur of femili a beauty in Paris society. "The expression itself is an arenaism, a remainder; so to say, of the days when the approbation of the Sovereign was necessary to ... obtaining the title, and the last woman to pessess it was the Counters de Castiglione, during the reign of Napoleon III. Paris society, is really a conglumeration of several societies, and each of these possesses its most beautiful woman. In the absence of a court, there can be no final judgment n this respect, and the rights of the several claimants can never be satisfactorily actiled. If one speaks of sensational beauty a beauty that forces admi ation without admitting oven the possibility of a dispute, "the last instance of such was the besuty of Madame G., during the presidency of Marshal Macmahon and of M. Casimir Perier. All of Paris crowded to the Salon to see hor portrait ; but even at that, she was never declared to ke the 'most beautiful woman in Paris. As for the present. the task of one who would designate a wuman as holding the beauty championship of Paris would be far more difficult than that of Paris of Troy, and he would indeed be a hero who would dare to render a verdict in this respect."

BEAUTY IN AWAR-TIME. \*\* The most beautiful women in Paris?" usried a well-known portrait painter All Paris women are beautiful, for they possess that inexplicable something which puts expressive gracefulness into every one of their features, into every one of their movements." To say the most brantifa ignorant of Paris and Parisiennes." "The one that shows the greatest devotion to the cause for which France is fighting at present is the most beautiful woman in Paris, and there is no divergence of opinion on this point," announced the

author whose novels of the days before the war dealt with the psychological side of feminine besuty. But if it amuses our Yanker confreres to designate. Mile. - as the impersonation of feminine beauty in Paris, why rob them of the opportunity to pay a compliment to all Paris women in the person fone? I know Mile. ---, and I am glad that it happens to be her, and not someone else, whom our Trans-atlantic friends have happened to designat- the beauty queen of Paris." I tremble to think where their exuberance might have let them in an ther que. Not even the question of the most beautiful woman, however, has distracted the attention of the Paris women from the fact that winter is approaching once more, and with it the cold and stormy days when the soldier will need again all the warm thingsthat kept on pouring into the trenches during the last winter months. Like the soldiers, with the soldiers, and for the soldiers, is the motto of the Paris women at present; but wait till the war is over, and the Yantes journalists will hear something on the subject of the ' most beautiful woman in Paris."

GERMANS IN THE SHAMEEN.

Colonel Yate (M.P. for the Melton division of Leicestershire) in the House of Commons asked whether Germans were still permitted to reside in the Shameen territory, Canton, wifich was leased to Great Britain. The German Consulate, Bank and Post Office there were allowed to do business.

Lord Robort Cocil, Under-Secretary for Foreign Affairs, in reply. said that China remains in sovereignty of the Shameen and that, therefore, foreible ejection of German tenants; unless they break the conditions of their leases, would be a breach of neutrality and of the sovereignty of China.

EXPEDIENCY. OF MITHDRAWAL OF TROOPS RAISED.

London, Oct. 15.

In the House of Lords, Lord Wilner suggested that the Allied troops in Gallipoli should be withdrawn and transferred to some other theatre of the war.

The Marquis of Lansdowne said that while an examination of the situation by the military authorities of the Allies was proceeding, it would be most unfortunate if the House passed judgment on the operations or attempted to reveal in anticipation what would likely be the future conduct of operations.

Lord Crewa also deprecated discussion.

Lord Ribblesdalo said that the new and difficult situation gave the fovernment an opportunity to consider whether they could not with roper dignity and with serious regard to all the circumstances get out of the unfortunate adventure in the Dardanelles. The Government ought to state whether they were considering anything of the sort.

PROBABLE, RECONSTRUCTION OF THE COVERNMENT.

LONDON, Oct. 14. The Merning Post says that there is an almost universal feeling that reconstruction of the Government is possible, before many days.

The Daily News says the Conscriptionist Ministers fulled to enery the day at 'yesterday's Cabinet meeting. but they now consider it unnecesrary for them-to-resign, as-they-areconfident of the victory of their policy. There is little doubt that Lord Kitchener's sympathies now definitely with the Conscrip- policy in the near East.

# STATEMENT BY SIR EDWARD

LONDON-Oct.-LA Sir Edward Grey, Secretary of State for Foreign Affairs, in a statement made to the House of Commons on the position in the Balkane, emphasised that it dealt with the diplomatic and not the realitary side of the situation. He declined to reply to the criticism of a portion of the Press upon the diplomacy pursued in the Balkana because this was a somewhat delicate time for the discussion, and he proposed to confine himself to a short resume of the general objects of British diplomatic

RIVAL POLICIES. The right hon, gentleman then ax plained how the Allies worked for an agreement in the Balkans, but the Sovereigns and the Governments Germany, Austria, and Bulgaria had succeeded in forcing a policy of war against that of the Allies, which was founded upon the realisation of hopes and aspirations of all the Balkan States, implying the opportunity to peoples of the same race, sentiments. and religion to join thomselves to that State which was most akin to them.

BULGARIA'S SECRET TREATY. In the course of the negotiations we this Department against persons were informed that the Central Powers had offered Bulgaria more for neutrality than the Allies could, in common fairness, offer for Bulgaria's active supports. With reference to the statement that there is no secret treaty between the Central Powers and Bulgaria, it is too much to ask us to believe that Bulgaria, who received large promies from the Central Powers for neutrality, had been induced to enter the war without any provisions at all. These promises, whatever they are, must be at the expense of Bulgaria's neighbours, without any corresponding advantage to the

GREECE AND HER TREATY OBLIGATIONS.

Bulgaria's stinck on Serbia raises reece's Treaty obligations. For the attitude and intentions of the Greek Government at the moment, and the feelings of the Greek people, I can only refer you to the recent speeches of Zaimis and Venezelos; but it is obvious that the interests of Greece and Serbia are now one, and, in the long run, they stand or fall-together. He thought the hold had been ander water, and the water had rushed thr ugh it and got under the cargo in the after part of the vessel, unseen. # CORRESPONDENCE

We do not necessarily ocquises in opinio expressed by correspondents—Ed.] SWEDEN AND THE WAR.

## (To the Editor of the "CHINA MAIL."

Dear Sir,-The China Mail of the 13th October contains a leading article headed will Sweden join in the Gigantic Un-heaval," in which extracts from English and Russian newspapers relating to Sweden and the Great War are reproduced. Being a Swede I would feel much obliged if you would allow mo to make a few remarks and corrections about the upinions and statements made.

I would then start with the opinions expressed in the Russkoys Slove and the Merhing Post, which both refer to a desire on the part of Sweden to pay off old scores against Ru-sia, notably the loss of Finland a hundred years ago. Since the War started statements to this effect have appeared now and then in the English. Freuch, and Russian Frees, but I can assure" you that for many, many years nothing has been further from the mind of the Swedish people than the recovery of Finland, Even should Finland be given back to Sweden without the least excritice life or property Sweden would not accept and every man who understands anything about politics and the position ... Sweden in Northern Europe will know the reason why... What Sweden would gree! with satisfaction would be to see Finland either placed in the position she was up to: and including the reign of Coar Alexander III or as an Independent State.

The statement made by the London Paper "Justice" that the Swedish Army since the war has been almost doubled and that "Fifty now important officers posts have been created is entirely wrong, The present reforms of the Swedish Army and Navy have been contemplated for years and were decided upon before the war broke out, and they were aimed not at increasing numbers but at increasing the efficiency of the A my and Navy.

The main points of the reforms mentioned are: A longthoning of the term of service from about 9 menths to about 12 months for the main body of the Army; an increase of the number of educated going men from the Universities, etc., to be trained for the position of non-commissioned officers, these having to undergo about 500 days training, the ereation of an Inspector-General for the Infantry and the building of three new m'n of war, some destroyers, etc. The fact that more troops than usual are

concentrated on the Russe-Swedish frontier is solely due to Russia in the first justance having increased her troops in the same The contention that the Swedish Army is fully mobilised is absolutely wrong Certain points and positions are mate fally strengthened; that is true, and that is also Ab clutaly necessary considering Sweden's close position to Russia and Germany and her desire to strongly defend her neutrality. I believe that the Russo-German senfight

near Gotland and the the incident when German destroyers attacked the stranded English submarine at Saltholmen fully justifies such precautions being taken and are in the interest not only of Sweden but also of the belligarents. I would not have written against the above statements, had it not been for the

fact that of late quite a number of articles

have appeared trying to represent Sweden

as hostile to the Allies and especially to

to Russia. Sweden will never willing the

The War Loan is being made the subject of an interesting and ingenious catchpenny scheme against which the Hongkong public may be warned. The scheme was discovered locally through the stoppage and examination of letters to persons of enemy nationality now interned at the Prisoners of War camp. The letters contained a prospectus and application forms for share certificates in "The Empire War Loan Club " (" founded to encourage the sale of War Loan Stock"), and the dated from Geneva, Switzerland. "The in a you may become the possessor of a block of War Loan Stock in return for a very small outlay. The object of the scheme is to stimulate invostors to take up the balance of the War Loan and thereby assist the country to bring the War to a speedy and victorious conclusion. The Empire War Loan Club gives every person in the country, rich or poor, high or low, an opportunity to obtain scrip for the finest investment ever placed upon the market The Club is inspired by the highest motives of Patriotism, and we commend the scheme to one and all and urge you and your friends to support us to the fullest extent." The "sale of British War Loan Stock" is
